

# ACT 4

## 20-channel immersive audio preamp processor

The ACT 4 represents a revolution in 3D-audio home cinema processors. Designed to be the heart of a modern UHD home theater, the ACT 4 combines ultimate audio performance, control flexibility, HDMI 2.0b (2.1-ready), with the absolute latest immersive sound technologies. Wrapped in a stunning minimalist design, the ACT 4 meshes the celebrated audio engineering of Acurus with the power of advanced cinema technology—all in perfect harmony.

The ACT 4 also sets a new standard for ease of installation and use. An intuitive, full-color touch-sensitive front panel display simplifies setup and operation. Controllable via 3rd-party systems, the ACT 4 also offers web setup and control which enables operation of an ACT 4 theater from anywhere within the home via mobile device. The ACT 4 has both balanced and unbalanced outputs which allow for flexibility in any application. The ACT 4 supports Acurus' own room correction technology, ASPEQT, an acoustic optimization system which is incredibly simple to use yet is powerful enough for the most challenging cinema environments.

### highlights

- 20-channel processor
- 5-year warranty
- 3rd party controllable
- HDMI 2.0b (2.1-ready)
- decodes Dolby Atmos® & DTS:X™
- upgradeable

### applications

- residential home cinema
- multi-purpose
- light commercial
- pro audio

### extras

- aux DB9 to XLR cable
