This new generation is incomparable in musical and technical performance to all that is out there in the market. Aesthetically it differentiates itself externally via an all new 'black look' anodized Torrent woofers and equally black anodized Claw and Skid Plate. The Torrent V2 transducers are a dramatic advancement and a serious transformation of the famous 7-inch Torrent. Evolved and meticulously developed during these last 13 years at Totem, they are at the top of the world's dynamic speaker pyramid. Remember that the Torrent system remains exclusive to Totem, developed here in Quebec with knowledge and pride!

With cutting-edge patented technology, the Tribe and Element Series is design luxury! Exclusively designed for our Torrent Technology, these speakers offer a brocade of rich harmonics with world-leading on-off-axis dispersion and frequency range. The genesis for the Torrent's revolutionary application was our conviction that a driver could be made without using any active or passive crossover parts in the signal path of the woofer section. A simple crossover composed of as little as two components exclusively for the high frequency section. Ported for maximum bass performance and Bi-wire connectors to allow a variety of superior wiring options.

Surreal imaging and enormous soundstage!

TRIBE III

DESIGN

Multi-Coat high gloss finishes

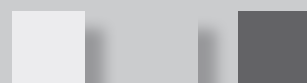

Available Finishes: DUSK & ICE
FIRE ON ORDER!

Dimensions:

5.91W 36H 3.5D

Frequency Response+/-3dB:

40Hz - 25kHz

TRIBE V

Dimensions:

6.18W 48H 3.5D

Frequency Response+/-3dB:

34Hz - 25kHz

DESIGN

Multi-Coat high gloss finishes

Available Finishes: DUSK & ICE
FIRE ON ORDER!

Available Finishes: **Satin Black, Satin White & Silver**

**MAGNETIC GRILL AND WALL BRACKET INCLUDED FOR
TRIBE III & TRIBE V!**

The Tribe III & V are true full-range speakers that activate sound naturally and effortlessly with complete phase coherence and unequalled dispersion. It is truly one of the world's best on-wall design series. Using Totem's in-house produced and hand-assembled Torrent™ woofer, it sets new standards in all domains.

TRIBE TOWER

Available Finishes: **Satin Black & Satin White**

DESIGN

High Gloss Multi-Coat Paint

Available Finishes: **DUSK & ICE**

FIRE ON ORDER!

Dimensions:

7W 36.8H 7.9D

Frequency Response+/-3dB:

30Hz - 30kHz

The Multi-Coat **high gloss** paint finishes have Bi-Wireable WBT 4-way connectors and an annealed aluminum terminal plate.

**MAGNETIC GRILLS &
ACOUSTIC DECOUPLING
FEET INCLUDED!**

True to Tribe heritage, this very contemporary speaker has a minuscule, radically thin, self-effacing slender footprint that visually contradicts its vast abilities as a completely full range speaker. A variety of spectacular finishes promises that there is one to suit every home and personality.

Solution Bars

TRIBE DUO

Sized for 65 inch & larger TV

Frequency Response +/-3dB:

65Hz - 25kHz

Dimensions: 57W 6.18H 3.54D

TRIBE TRIO

Sized for 65 inch & larger TV

Frequency Response +/-3dB:

55Hz - 25kHz

Dimensions: 57W 6.18H 3.54D

Available Finishes: Satin Black & Satin White

Magnetic Grill and Wall Bracket Included!

Tribe Series expands its range and versatility with Solution Bars. Truly a best of both worlds' scenario. Solution Bars possess the cosmetic appeal of active sound bars, but their passive design permits outboard amplifiers to be connected for substantially superior performance. True to Totem form, they are pleasing to the critical eye of a designer and excite the ear of the music, movie, gaming enthusiast. Neither sound nor style is compromised with the Totem Tribe Solution Bar. Designed to seamlessly integrate with the Tribe Series.

Tribe Solution Sub

Frequency Response +/-3dB:
26Hz - 200kHz
Powered with internal:
500W Amplifier
Dimensions: **24.01 x 13.07 x 4.52**

Available Finishes: **Satin Black & Satin White**

Magnetic Grill, Adhesive Feet, Power Cord & Two Stands Included!

The spectacular form of the Tribe Solution Sub dramatically separates it from the utilitarian mediocrity of conventional subwoofer design. Astonishing output and frequency depth that contradicts its appearance further distances it from the pack. It is simultaneously both a beauty and a beast.

LINK

Wireless Transmitter:
Use the LINK to make the KIN SUB 10
or Tribe Solution Sub wireless!

ELEMENT SERIES

FIRE V2

Dimensions: 8.8W 16.6H 11.7D

Frequency Response +/-3dB:

30Hz - 22kHz

The Element Fire V2, now it is the most life-like, full-range sounding 2-way monitor design that will effortlessly **exceed** the performance of competitive monitors and even more expensive floorstander loudspeakers.

WOOD V2

Dimensions:

27.5W 7.5H 10.75D

Frequency Response +/-3dB:

40Hz-22kHz

Element Wood is a center channel specifically designed for the Element Series. Equipped with two micro-machined and hand assembled Torrent™ 6-inch woofers, it is designed for extreme performance.

METAL V2

Dimensions: 11.7W 43.5H 14.9D

Frequency Response +/-3dB:

26Hz - 22kHz

**Includes our exclusive Skid Plate
Decoupling System & Magnetic
Grills!**

The V2 transducers (woofers) are a dramatic advancement and a serious transformation of the famous 7-inch Torrent. Evolved and meticulously developed during these last 14 years at Totem, they are at the top of the world's dynamic speaker pyramid. Torrent system design remains exclusive to Totem, developed in Canada with knowledge and pride! Externally visible changes to the 7-inch Torrent woofer are a slightly larger dust cap, rerouted tinsel, and further dampening, making it less obstructive and offering an incredible midrange control with a substantially one of a kind bass extension.

Bison Series

Totem monitors sound like no other available bookshelf speaker. Non fatiguing, full range, spatially exhilarating with a 'just right' sound character, size and beguiling flexibility. Thirty five years of crafting unique monitors comes through in any of these compact marvels. Enjoy them sitting or standing absolutely anywhere in a room, they will captivate you!

Totem Floorstanders present a fabulously easy full spectrum set up. Straight ahead, incorporating immersive power, full bass extension and unrestrained realism in a subtle, aesthetically balanced package. Fastidiously hand assembled with extreme care, exemplifying sonic excellence, timeless style and longevity; all one has to do is invite them in. The surprise factor, totally real nuances and subtleties will have you guessing whether the sounds and music are truly 'In' your room.

Bison Monitor

Dimensions: 13.11W 6.73H 9.56D

Frequency Response +/-3dB: 40Hz -
29.5kHz

Magnetic Grills Included!

Once again Totem redefines the luxury bookshelf category with the all new Bison Monitor. Its impactful and defies the visual expectations associated with such a small volume enclosure. The Bison Monitor features an inimitable Morel woofer equipped with an oversized 3-inch voice coil permitting an extremely long throw and an astounding power handling rating of 500 w. The tweeter is Neodymium activated and laser etched, soft dome tweeter designed to our specifications and guidelines by Mueller. Extending to 30kHz, and low enough to contribute to the midrange band and gives the Bison Series an uncanny charm.

Bison Center

Dimensions: 22.5W 6.3H 9D

Frequency Response +/-3dB: 42Hz
-21kHz

Magnetic Grills Included!

Available Finishes:
Black Ash, White Oak
Black Walnut &
Satin White"

BISON TOWER

A stampede through a totally open vista of dynamic, natural, and extended harmonic sounds coalesced into a harmonious and brilliant horizon of musical joy. These two NEW Towers possess compelling sound-staging abilities resulting in ultra wide and deep characteristics with great center-fill, whereby musical information hits you from all sides. Both Bison Towers are easier to drive and offer up a more flexible setup .

Dimensions:
6.89W 33.46H 9.13D
Frequency Response:
30Hz - 30kHz

Magnetic Grills Included!

Available Finishes: Black
Ash, White Oak & Satin
White

BISON TWIN TOWER

Dimensions:

Available Finishes: Black Ash, Mahogany & Satin White

Magnetic Grills Included!

Model One Signature Center

Dimensions: 22.2W 6.5H 9.3D

Frequency Response: 40Hz - 20kHz

Available Finishes: Black Ash, Mahogany & Satin White

now with Magnetic Black Grill Included!

ARRO

The Arro's strong frequency extension and broad-spectrum harmonics blend in a phase-perfect conjunction that transmits the true essence of music. With its ultra-slim design, the alluring and versatile Arro speaker is an aesthetic room-pleaser that allows endless placement possibilities.

Dimensions: 5.1W 33.5H 7.1D

Frequency Response +/-3dB:

40Hz - 20kHz

NEW FEATURES:

Black Decoupling Feet (Claws) Included!

FOREST

Enter the realm of beauty with the Totem Forest. Designed for power and articulate voicing, the Forest is at ease with all types of music. Whether in stereo, multi-channel audio or a high-quality A/V application, the Forest creates a synergy between spatial imaging and dynamic power that goes beyond the usual.

Dimensions:

7.7W 34.37H 10.6D Frequency

Response: 30Hz - 20kHz

**Magnetic Black or White Grills & Black Decoupling Feet
(Claws) Included!**

Available Finishes: Black Ash, Mahogany & Satin White

FOREST SIGNATURE

The Forest Signature is the pure result of balanced engineering and passionate design. This ultra-performance columnar loudspeaker radiates superb musicality for both stereo and multi-channel listening. The Forest Signature is at once a celebration and culmination of the Forest evolution. Designed to transcend time, the Forest Signature stands tall in the speaker realm. It offers unparalleled musicality and spatial imaging while faithfully rendering subtleness and attack/decay harmonics.

Available Finishes: High Gloss Mahogany, Cherry, Dusk & Ice

Dimensions: 7.8W 36H 11.5D

Frequency Response +/-3dB:

28Hz - 22kHz

Magnetic Black or White Grills & Black Decoupling Feet (Claws) Included!

WIND

Dimensions:
10.7W 44.3H 14D Frequency
Response:
24Hz - 21kHz

Available Finishes: Black
Ash, Mahogany & Satin
White

The Wind has been appreciated for its avant-garde design and superior sonic architecture. A totally unique (4x) driver 3-way speaker system, the Wind stands for flexibility and truly full-range expressiveness. Going a step further than the original Wind Floorstander, the Wind Design is refined to the highest sonic tolerances. With its hand-selected drivers and exclusive crossover components, the Wind Design offers ultra-broad all-axis sound staging performance. Designed like a musical instrument, the Wind Design delivers sonic expressiveness to the absolute, pulling you inside the music.

Dimensions:
10.7W 44.3H 14D
Frequency Response:
24Hz - 21kHz

Available Finishes: DUSK &
ICE (FIRE ON ORDER)
